CAREER HIGHLIGHTS

Java Backend Developer with 1+ year experience in building scalable REST APIs and microservices using Java, Spring Boot, MySQL, Kafka, and AWS. Skilled in performance optimization, secure authentication, and distributed systems. Seeking backend engineer roles in product-based companies.

WORK EXPERIENCE

Operations Intern – Unacademy

10/2024 – 01/2025 | Bangalore

- Collaborated with engineering teams to support internal tools and workflows.
- Assisted in testing and improving internal systems and operational automation.

Software Developer at Happy Visitor

01/2025 – 11/2025 | Bangalore

- Developed 50+ production-grade REST APIs using Java, Spring Boot, and MySQL, supporting scalable, high-volume applications.
- Improved API performance through pagination, request validation, query optimization, and database indexing, reducing response times and improving efficiency.
- Implemented role-based authentication and authorization using Spring Security, ensuring secure access control across applications.
- Integrated Apache Kafka for asynchronous communication between services, enabling reliable and fault-tolerant message processing.
- Designed and optimized dynamic JPQL queries to support complex business requirements and efficient data retrieval.
- Automated scheduled jobs and background processes using Spring Scheduler and multithreading for notifications, reporting, and system maintenance.

SKILLS

- **Programming Languages:** Java (Java 8, 17, 21)
- **Backend & Frameworks:** Spring Boot, Spring Security, Hibernate, JPA, RESTful APIs, Microservices, Spring Validation
- **Messaging & Asynchronous Processing:** Apache Kafka, Multithreading, Scheduled Tasks and Feign Client
- **Databases:** MySQL, JPQL, Redis
- **Frontend (Working Knowledge):** Angular, JSP
- **DevOps & Cloud:** Docker, AWS (EC2, S3, Elastic Beanstalk), CI/CD (GitHub Actions, Jenkins)
- **Tools & Version Control:** Git, GitHub, Postman

EDUCATION

Master of Computer Applications (MCA), Vellore Institute of Technology

06/2026 – Present

Pursuing...

Bachelor of Computer Applications (BCA), The Oxford College of Science

11/2020 – 09/2023 | Bangalore, India

Graduated with **First Class (78%)**

PROJECTS

Tours & Travels Management System

01/2024 – 06/2024

- Developed a travel booking platform using **Java, Spring Boot, and MySQL**.
- Implemented **JWT-based authentication and role-based authorization**.
- Integrated **AWS S3 for media storage** and centralized exception handling.

Flight Booking System

06/2024 – 08/2024

- Designed a **microservices-based flight reservation system** using Spring Boot, Eureka, API Gateway, and MySQL.
- Implemented independent services for flight search, booking, and user management with API Gateway and service discovery using Eureka.
